

**Department Chair
Electrical and Computer Engineering
J.B. Speed School of Engineering
University of Louisville**

Applications and nominations are solicited for the position of Chair of the Electrical and Computer Engineering Department at the University of Louisville. Candidates are expected to have an earned doctorate in electrical or computer engineering or a closely related field, a solid record of research, a commitment to excellence in teaching, and strong leadership, communication and administrative skills. The preferred candidate should be tenurable at the rank of a full professor.

The ECE Department has 180 undergraduate students, 100 master students, 40 doctoral students, 19 faculty, \$5M in annual research expenditures, and a number of exemplary research facilities, including several high-end super-computing facilities and one of the largest new micro/nano cleanrooms in the nation. The department is nationally recognized in the areas of nanotechnology, MEMS, electro-optics, computer vision and image processing, medical imaging, and computational intelligence.

Louisville is the 16th largest metropolitan city in the US. Its low cost of living combined with its unique amenities and quality of life have recently earned Louisville the recognition as the *nation's best city for relocating families*.

Applicants must apply online (at www.louisville.edu/jobs for Job Opening ID 20715 and attach a current curriculum vitae, an application letter including a vision statement to grow the research and educational mission of the department, and the names of at least five references with full contact information. Nominations should be forwarded to Prof. Kevin Walsh (walsh@louisville.edu), chair of the search committee. Additional information concerning the department and position is available at www.ece.louisville.edu. Minority and female candidates are encouraged to apply. The University of Louisville is an equal opportunity, affirmative action employer.
